

Ref # GR/TN/2021-2022/SNL/02

Dated : 30<sup>th</sup> Sept 2021

Dear Valued Customer

Greetings from GatewayRail!

This is to inform you that GatewayRail is constrained to levy an Additional Variable **Imbalance Surcharge (VIS) of Rs 1,000 per TEU** on all Exports and Imports laden containers handled at GatewayRail's Inland Container Depot at Ludhiana (Sanehwal) with effect from **10<sup>th</sup> Oct 2021**.

This has become inevitable on account of an increase in cost of transportation due to a drop in import and a surge in exports at the Inland Container Depot.

The aforementioned **Additional Variable Imbalance Surcharge** will be charged along with Terminal Handling Charges (THC), Terminal Service Charges (TSC) etc., as applicable at the Inland Container Depot.

**It will be charged to the Importers / Consignee / Freight Forwarders as the Paying party at the time of delivery of Import containers at the ICD and to the Exporters / Consignors / CHA / Freight Forwarders / Shipping Lines as the Paying Party on Export containers at the time of booking at the ICD.**

It is our endeavour to provide you always with the best of our services under given circumstances.

We look forward to your support to enable us to provide reliable service.

For any query may please feel free to contact ICD customerservice desk.

Best Regards,  
Customer Service Desk  
Gateway Rail
